MEMORANDUM FOR THE DIRECTOR

1. This memorandum is for information only.

2. On "Meet The Press" yesterday Senator Stuart Symington said certain information regarding Cuba that the American people should know is not being made public by the Administration. Asked to state what this information is, he said the Central Intelligence Agency which furnishes the information does so on a classified basis and only the Agency that puts the classification on the information may declassify it. Therefore he could not make public the information which he thought should be made public concerning what is going on in Cuba.
